

Funding Available for Individuals

You can save money on transportation, energy and heating expenses while helping California reduce greenhouse gas emissions. To find a program's current funding availability and timeline, please follow the listed program links.

Alternative Manure Management Program

This program provides grants to implement non-digester practices that reduce dairy and livestock manure methane emissions, such as solid separation or conversion from flush to scrape manure collection in conjunction with a manure treatment or drying practice, compost bedded pack barns, and enhanced pasture-based management practices. Technical assistance is available.

Clean Cars 4 All

This program helps replace older, higher-polluting cars with cleaner vehicles and mobility options.

bit.ly/CC4Acci

Clean Vehicle Assistance Program (CVAP)

This program offers a vehicle price buy-down to purchase a new or used zero-emission or plug-in hybrid-electric vehicle, and facilitates access to low-interest loans for lower-income consumers.

bit.ly/CVGPcci

Clean Vehicle Rebate Project (CVRP)

This program provides rebates for purchase or lease of new, eligible, light-duty vehicles including electric, fuel cell, and plug-in hybrid electric vehicles.

bit.ly/CVRPcci

Community Composting for Green Spaces Grant (CCG)

This program provides grants to create, expand, and improve small-scale composting programs located in disadvantaged and low-income communities.

bit.ly/ComCompostcci

Dairy Digester Research and Development Program (DDRDP)

This program awards grants for the implementation of dairy digesters on California dairies that result in long-term methane emission reductions from dairy manure while mitigating or minimizing adverse environmental impacts.

bit.ly/DDRDPcci

Farmworker Housing Single-Family Energy Efficiency and Solar Photovoltaics (PV)

This program provides energy efficiency upgrades such as appliance replacements, insulation and lighting upgrades, solar PV, and health and safety improvements for farmworker-occupied housing at no cost to residents.

bit.ly/FHSFEESP

Food Waste Prevention and Rescue Grant Program (FW)

The purpose of this program is to lower overall greenhouse gas emissions by establishing new or expanding existing food waste prevention projects (source reduction or edible food recovery for people) in California to reduce the amount of food being disposed of in landfills. Eligibility limited to Federally Recognized Tribes in California.

bit.ly/FWPcci

Forest Health Program

This program provides grants for active restoration and reforestation activities aimed at providing more resilient forests by funding activities such as forest fuels reduction, prescribed fire, pest management, reforestation, biomass utilization, conservation easements and/or land acquisition through the Forest Legacy Program, and research through the Forest Research Program.

bit.ly/ForestHealthcci

Forest Health Research Program (FHRP)

This program funds scientific research projects on topics related to forest health and wildfire. Technical assistance is available.

bit.ly/FHRPcci

Funding Agricultural Replacement Measures for Emission Reductions (FARMER)

This program provides incentives to replace older, higher-polluting agricultural vehicles and equipment with cleaner options. To learn more about the program, please see the program website at bit.ly/carbFARMER or contact your local air district. The California Air Resources Board provides funding to local air districts to administer the FARMER Program for their region. Local air district contact information is available at bit.ly/FARMERdistrict.

Recycled Fiber, Plastic, and Glass Grant Program

This program provides grants for manufacturing projects that expand paper, plastic, and glass recycling.

bit.ly/FPG2cci

Safe and Affordable Funding for Equity and Resilience (SAFER) Program

The Safe and Affordable Drinking Water Fund is a part of the Safe and Affordable Funding for Equity and Resilience (SAFER) Program. SAFER is a set of tools, funding sources, and regulatory authorities designed to meet the goals of safe, accessible, and affordable drinking water for all Californians. Technical assistance is available.

Training and Workforce Development Program – Energy Corps

This program trains California Conservation Corps members to conduct energy surveys as well as retrofit lighting and controls in public buildings.

bit.ly/CalEnergyCorps

Training and Workforce Development Program – Forest Health

This program trains California Conservation Corps members to conduct fuel reduction, reforestation, wetland restoration, urban forestry, and urban greening projects.

bit.ly/CalConservationCorps

Woodsmoke Reduction Program (Individuals)

This program provides financial incentives to replace older, higher-polluting wood stoves, inserts, or fireplaces used for primary space heating with cleaner burning and more energy-efficient home heating.

Apply through participating air districts.

bit.ly/WRPcci

These programs are part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment — particularly in disadvantaged communities.
