

Funding Available to Local Governments

Local governments can receive funds to reduce climate pollution through clean transportation, waste prevention, clean air initiatives, and more. To find a program's current funding availability and timeline, please follow the listed program link.

Advanced Technology Demonstration and Pilot Projects

This program provides grants for pre-commercial demonstrations and pilots of advanced vehicles, engines, equipment, vessels, and transportation systems with supporting infrastructure.

bit.ly/ATDPPcci

Affordable Housing and Sustainable Communities (AHSC) Program

This program provides funding that supports infill affordable housing development as well as sustainable transportation infrastructure. Affordable housing developers can apply in partnership with local jurisdictions, including a Tribal Entity, to build housing and improve the safety of pedestrians and bicyclists, as well as fund transit facilities and operations. AHSC has a funding goal to award at least one project from an eligible Tribal Entity. Technical assistance is available.

bit.ly/AHSCcci

Clean Off-Road Equipment Voucher Incentive (CORE)

This program provides vouchers for zero-emission off-road equipment, such as forklifts, transport refrigeration units, terminal trucks, commercial harbor craft, switcher locomotives and other zero emission off-road equipment used in pro landscaping, agriculture, and construction.

bit.ly/CalCOREcci

Clean Truck and Bus Vouchers Program (HVIP)

This program provides vouchers for the purchase or lease of clean trucks and buses with set-aside funding for public transit agencies, public school buses, drayage trucks, and small fleets.

bit.ly/CalHVIPcci

Clean Mobility Options (CMO)

This program provides voucher-based funding in support of small-scale clean mobility projects, such as electric carsharing, bike sharing, vanpooling, and other clean mobility options, as well as community transportation needs assessment projects in disadvantaged, income-eligible, and Tribal communities. Technical assistance is available. bit.ly/CMOcci

Clean Vehicle Rebate Project (CVRP)

This program provides rebates for purchase or lease of new, eligible, light-duty vehicles including electric, fuel cell, and plug-in hybrid electric vehicles. bit.ly/CVRPcci

Climate Ready Program and Climate Adaption

The Coastal Conservancy's Climate Ready Program helps natural resources and human communities along California's coast and around San Francisco Bay adapt to the impacts of climate change. The Conservancy supports multi-benefit projects that use natural systems to assist communities in adapting to the impacts of climate change. bit.ly/CRPCAcci

Community Assistance for Climate Equity (CACE)

This program supports communities in applying to California Climate Investments and other climate-related funding programs. The CACE program aims to make the process fairer for applicants that may lack the capacity to successfully access these funds, particularly those that live in the state's most disadvantaged communities. bit.ly/CACEcci

Community Composting for Green Spaces Grant (CCG)

This program provides grants to create, expand, and improve small-scale composting programs located in disadvantaged and low-income communities. bit.ly/ComCompostcci

Food Waste Prevention and Rescue Grant Program (FW)

The purpose of this program is to lower overall greenhouse gas emissions by establishing new or expanding existing food waste prevention projects (source reduction or edible food recovery for people) in California to reduce the amount of food being disposed of in landfills. Eligibility limited to Federally Recognized Tribes in California. bit.ly/FWPcci

Forest Health Program

This program provides grants for active restoration and reforestation activities aimed at providing more resilient forests by funding activities such as forest fuels reduction, prescribed fire, pest management, reforestation, biomass utilization, conservation easements and/or land acquisition through the Forest Legacy Program, and research through the Forest Research Program. bit.ly/ForestHealthcci

Forest Health Research Program (FHRP)

This program funds scientific research projects on topics related to forest health and wildfire. Technical assistance is available. bit.ly/FHRPcci

Funding Agricultural Replacement Measures for Emission Reductions (FARMER)

This program provides incentives to replace older, higher-polluting agricultural vehicles and equipment with cleaner options. To learn more about the program, please see the program website at bit.ly/carbFARMER or contact your local air district. The California Air Resources Board provides funding to local air districts to administer the FARMER Program for their region. Local air district contact information is available at bit.ly/FARMERdistrict.

Greenhouse Gas Reduction Loan Program

This program provides loans to fund construction, renovation, or expansion of facilities for preprocessing, digesting, or composting organics, or the preprocessing or manufacturing of value-added finished products using recycled fiber, plastic, or glass. bit.ly/GHGLoans

Healthy Soils Program (HSP)

This program has two components. The Healthy Soils Incentives Program provides financial incentives for on-farm implementation of conservation management practices that improve soil health, sequester carbon, and reduce greenhouse gas emissions. The Healthy Soils Demonstration Projects showcase on-farm implementation of Healthy Soils practices to support farmer/rancher outreach and education. Technical assistance is available. bit.ly/HealthySoilsccl

Multi-Family Energy Efficiency & Renewables

This program provides technical assistance and incentives for the installation of energy-efficiency measures and solar photovoltaics in low-income multi-family affordable housing serving priority populations. These projects reduce both residential energy demand and greenhouse gas emissions. bit.ly/MFEEARcccl

Organics Grant Program (ORG)

Grants for projects that expand organic recycling and food recovery efforts. Technical assistance is available. bit.ly/OGPcccl

Recycled Fiber, Plastic, and Glass Grant

This program provides grants for manufacturing projects that expand paper, plastic, or glass recycling. bit.ly/FPG2cccl

Safe and Affordable Drinking Water Fund

The Safe and Affordable Drinking Water Fund is a part of the Safe and Affordable Funding for Equity and Resilience (SAFER) Program. SAFER is a set of tools, funding sources, and regulatory authorities designed to meet the goals of safe, accessible, and affordable drinking water for all Californians. Technical assistance is available. <http://bit.ly/SAFERcccl>

Sustainable Agricultural Lands Conservation (SALC) Program

This program provides planning and acquisition grants to protect at-risk agricultural lands from conversion to more greenhouse gas intensive uses. Funds can be used by eligible applicants to purchase conservation easements or fee title from landowners to protect the property's agricultural uses, and/or in partnership with Tribal Entities to protect land use to promote healthy trees and perennial forbs for the cultivation of foods, herbal medicine, fibers, and dyes. Technical assistance is available.

bit.ly/SALCcci

Sustainable Transportation Equity Project (STEP)

This program offers funding for community-scale clean transportation and land use projects in disadvantaged and low-income communities. Technical assistance is available.

bit.ly/STEPcci

Training and Workforce Development Program - Energy Corps

This program trains California Conservation Corps members to conduct energy surveys as well as retrofit lighting and controls in public buildings.

bit.ly/CalEnergyCorps

Training and Workforce Development Program - Forest Health

This program trains California Conservation Corps members to conduct fuel reduction, reforestation, wetland restoration, urban forestry, and urban greening projects.

bit.ly/CalConservationCorps

Transit & Intercity Rail Capital Program (TIRCP)

Grants for transformative capital improvements that modernize California's intercity, commuter and urban rail system, and bus and ferry transit systems, to significantly reduce emissions of greenhouse gases, vehicle miles traveled, and congestion. Technical assistance is available.

bit.ly/TIRCPcci

Wildfire Prevention Grants Program

This program funds hazardous fuels removal, wildfire prevention planning, wildfire prevention education, and wildfire prevention research with an emphasis on improving public health and safety. Technical assistance is available.

bit.ly/WPGPcci

These programs are part of California Climate Investments, a statewide initiative that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment — particularly in disadvantaged communities.
